The Art of Flooring

Minimalist form and exceptional details are the essence of ultimate design, which means that Artisan parquet flooring is an excellent choice for the present and the future. Artisan Chalet flooring collection is suitable for heavy foot traffic areas. An important feature and a secret of this collection are its natural beauty and the quality, provided by real wood.

The Artisan Cottage collection is designed to imbue the space with a pleasant and contemporary feel by applying your senses. A dynamic and authentic design dominates this collection and expresses the artistic and free style of the biggest interior design experts. The flooring from Artisan Palace collection is a creative combination of size and also the quieter, calmer colour shades and natural beauty. The collection will suit the ones who appreciate details and know that less is more in a particular area.

Artisan Lounge is a collection of flooring which will appeal to those who appreciate modern form and original colours. The boards come in the most contemporary colour shades and they are a perfect choice for the people who favour avant-garde and innovative solutions.

Underfloor heating: Not all flooring is suitable for underfloor heating. Due to a multi-layered composition of the Artisan parquet flooring heat conduction is good and the flooring can easily be used on underfloor heating systems.

Images of the samples in this brochure are as authentic as possible, but they may vary from the original flooring boards.
For this reason, we recommend a visit to your nearest specialised showroom with Floor-Experts products to look at the actual samples in live.
